Legend Rare Coin Auctions Announces BigMo Hall of Fame Civil War Set for its Regency 38.

Incredible Collection anchors Day 1 of their historic 2-Day Auction

(Lincroft, NJ—2/27/2020)— Legend Rare Coin Auctions is proud to announce our upcoming Regency Auction 38 will feature the BigMo Collection of Civil War Coins. The current consignment is Part I of the collection, and features 93 exquisite coins. All minted from 1861 to 1865, this group will include every copper and silver coin minted during those years, as well as select gold coins as well. This impressive set, now retired by the collector, had long been the #1 Set on the PCGS Set Registry for this popular Specialty Series, and was the first Civil War Set ever completed there.

Part 1 of The BigMo Collection features over 25 coins that are Top Pop at PCGS, including 14 that are the single finest known for the date and denomination. Company founder Laura Sperber picked up the collection personally, and could not be more excited to offer this once in a lifetime collection to the collecting public. She had the following to say: "The BigMo Collection is truly one of the greatest individual collections I have ever seen assembled in my experience in this industry. The set is fully deserving of its Hall of Fame status, and is the type of set most collectors could only dream of completing. I cannot wait to start showcasing this collection around the country, and am ecstatic that Legend Rare Coin Auctions was offered the opportunity to bring this collection to market."

Specific Highlights from the BigMo Collection include:
